Welcome,

We are Kaja and realize design wishes. With a wide range of both indoor and outdoor furniture, dream projects are designed by our designers. We take care of the design, realization, supervision and care of a complete interior project. Everything for care & education, sports & recreation, retail & business or catering, nothing is too crazy for us!

furniture, design and realisation

Kaja stands for the motto "Together you are strong!" That is why we work together with Van Gestel Grootkeukentechniek, HANOS and Higold Excellent Outdoor Furniture. These partners are indispensable for us and can all be found in our Studio Senses inspiration centers.

We turn idea's into design

We are Kaja and realize design wishes. Get together with our own designers, they work in line with the latest trends and design dream projects! Have you always been so curious about how our projects come about? Then read and browse through and take a look at the realized projects!

1. AROUND THE TABLE WITH ONE OF OUR DESIGNERS

In order to get to know each other, we schedule an intake interview with one of our consultants and designers. During this interview, subjects such as the budget, the programme of requirements and the realisation will be discussed. But of course also your wishes for colour, material, space and furnishing.

2. DESIGN DESIGN DESIGN

The designer will work for you with the given wishes. The designer creates a moodboard from which materials and colours are chosen. This is incorporated into a floor plan with a spatial layout. The moodboard, the choice of materials and colours and the layouts will be discussed with you. Do you have any changes in the design? Then we will adjust it!

3. QUOTATION & PREPARATION PHASE

After approval of the design, the cost estimate will be included in a quotation and signed by you! Together we start the realization. In order to be able to actually carry out everything, the drawings are worked out in technical detail and ordered by our project department. We meet the project manager, who is also happy to join the construction crew in their discussions. Together we start the realization in which we guide you!

4. THE REALISATION

Then the time has come: THE REALISATION! The products are delivered and assembled on site, it's really starting to look like it! Hasn't it been fully dressed up yet as you wanted it to be? Then we offer the possibility for on-site styling by our stylists. We are happy to record the new design and Kaja will take care of the photography. This can be used for marketing activities and social media.

Frank's Bistro & Restaurant

Düsseldorf
Germany

In Düsseldorf's old town behind the 300-year-old façade of the Palais Spinrath you will find Restaurant, Bistro & Club Frank's.

A relaxed and lively atmosphere in the bistro or a luxurious and chic ambience with a view of the Andreashöfe in the restaurant. It's all possible!

Interior designer Stefanie has worked with traditional shapes in her design, which are processed in a contemporary way. The mix of various materials such as natural stone, wood, leather and velvet give each room its own twist, just like the unique lighting plan that has been processed. The hidden gem at Frank's is the Club in the basement. Guests are taken to a new world with golden walls, marble and luxurious fabrics. An extraordinary atmosphere where you can enjoy a drink or a luxurious dinner.

Nice by Elliott

Noordwijk, The Netherlands

Glamour, sexy and chic... that's the concept of NICE by Elliot in Noordwijk. Our interior designer has worked with various colors and materials in her design. The combination of marble, brass, wood and velvet creates a whole and a warm look.

A restaurant where everything revolves around experience and hospitality; a delicious drink, beautiful dishes or special cocktails at the bar. It's all possible at NICE by Elliot.

de Zwaan

Delden, The Netherlands

At restaurant, hotel and foodbar de Zwaan in Delden you are welcome for an extensive lunch and a good dinner. A place where you can plop down in the Gelagkamer with a Gin&Tonic or a delicious special beer from the tap. The place where the tourist meets the local, the housewife the hipster and where uptown meets downtown. In short: The Swan is 'the living room' of Delden. With its warm charisma and hospitality. And that is also visible in the interior, the cozy and atmospheric spaces. Perfect for a drink, a business lunch, a conference or a romantic dinner.

Sint Jans Gebouw

Wierden, The Netherlands

'Cosiness in a new look' at the Sint Jans Building in Wierden! This is not only the slogan of the grand café, but was also the assignment for Kaja & Van Gestel to design and realize the interior and kitchen. The designer has managed to make a perfect combination between then and now. The interior consists of a lot of traditionally characterized furniture with a chic and modern twist! Thanks to Van Gestel's compact kitchen, guests can enjoy an easy breakfast, a delicious lunch or a snack over coffee or a drink. With the interior of Kaja and the kitchen of Van Gestel, St Jans Gebouw has become the living room of Wierden!

"Cosiness from the past in a new look."

STEFANIE

The kitchen was realised by our partner at Gestel Grootkeukentechniek.

Meerwold Food & Drinks

Groningen, The Netherlands

A brand new interior, stunning views of the Hoornsemeer, delicious food and conviviality; these are the ingredients of Meerwold Eten & Drinken. With a lot of enthusiasm, our designer has been able to transform the spaces into an attractive design. A place where you can watch, taste, smell and enjoy in the restaurant, bar or in the great ambiance of private dining for private groups.

Restaurant Eemlust

Baarn, The Netherlands

Restaurant & Rederij Eemlust is a unique place on the river Eem where everyone can enjoy our surprising dishes and hospitable service! A real family business and it is important that you feel at home! And that can be seen in the interior, a cozy and atmospheric space.

"A charming and unique place on the water"

Brasserie Monastère

Delft, The Netherlands

In the heart of Delft you will find Café Brasserie Monastère on the corner of the Beestenmarkt. The brasserie owes its name to the Minderbroederklooster that stood on the square until 1595.

On one side you can enjoy a drink at the authentic bar. On the other side of the building you can enjoy the French cuisine in the cozy brasserie.

Designer Roza has combined the old elements of the building to create a classic, accessible and elegant atmosphere. With the subway tiles, the white marble and the well-known bistro chairs, it's as if you're in France.

Brass Boer Thuis

Zwolle, The Netherlands

Jonnie and Thérèse Boer of De Liberije in Zwolle and Brass Boer on Bonaire, opened a new restaurant in Zwolle at the beginning of May: Brass Boer Thuis. Together with our partners from Gestel Grootkeukentechniek and HANOS, we worked together to create Brass Boer Thuis as a real home and we succeeded!

Designer Stefanie has transformed Brass Boer Thuis into an atmospheric bistro with a warm appearance, partly due to the use of yellow and orange colours. In Brass Boer Thuis the same kind of dishes are served as in Brass Boer on Bonaire, but with ingredients from the Zwolle region. This makes it a new 'bistro-brasserie style' in which many dishes are served directly from the wood feed to the guests. It has become a place to enjoy an evening, just as atmospheric and convivial as in a real home!

"An attractive design"

Boutique Club Plan

Nijverdal, The Netherlands

Plan Nijverdal, formerly Gym to B, officially opens its doors in a new building! A boutique club for relaxation and effort, and we were allowed to take care of the furniture.

*"It all starts
with a plan "*

At the new location not only can we train, but also have meetings and lunches. According to the owner, the name Plan Nijverdal is 'an all-embracing name that suits all possible activities on the Holterweg. After all, everything starts with a plan'.

We were allowed to take care of the furniture resulting in a beautiful picture! A unique atmosphere with a warm and tough look. A place to enjoy after an effort or during a meeting.

Pastry shop Thijs

Oldenzaal, The Netherlands

Ice cream from Patisserie Thijs in Oldenzaal. A project of Kaja. He had planned a different opening but it's no different in the 'Corona time'. Krentenwegge, pastries, cakes, chocolate and ice cream; Thijs sells it all. The delicacies are displayed in two showcases. Customers can take it home or eat it at one of the tables in his shop. "Or later outside. There will also be a terrace", says Thijs. Then the corona measures must have been lifted. For the time being the entrepreneur only sells half a litre of ice cream.

We wish Thijs lots of success! The business looks at least successful!

The Lemon Tree

Deventer, The Netherlands

"Kaja Interiors has done everything for us. We were not that enthusiastic about this beforehand and thought that they only built those standard recognizable restaurants and bars. What a mistake we made.

From the very first moment they were able to translate the ideas we had in our heads into a beautiful and special design. What we think is important is that switching is done quickly and in a pleasant way, and that is exactly what we experienced at Kaja.

Designer Stefanie is responsible for the entire moodboard and design. She is a talented designer with knowledge of beautiful things. According to Valentijn Bergers, Michaël Hoeksema and Max Hertzdaal of Lemon Tree".

Gastrobar 1910

Almelo, The Netherlands

Gastrobar 1910 opened its doors in a historic building in the centre of Almelo. A restaurant where it's all about good meat and fish dishes.

The building was decorated by Kaja years ago, but was completely restyled for Gastrobar 1910. The bar and kitchen have been left in place, but the rest has been completely redesigned'.

Because of the warm and natural tones, it has become a modern design. The golden elements in the interior serve as a real eye-catcher. The golden logo connects to the interior, but also to the crockery, clothing and menu. The well-considered lighting makes the golden wallpaper, the wine climate cabinet and the golden wall decorations stand out even more". In combination with the luxurious velvet upholstery and botanical elements, the restaurant has been given a chic and modern look. A place where you can enjoy, meet and share; the perfect night out.

"Perfect for a night out!"

BY AMI Urban Bistro

Rotterdam, The Netherlands

By Ami Urban Bistro is the new hotspot with international allure, located at one of the most beautiful locations sop de Kop van Zuid in Rotterdam.

A project that Kaja was allowed to work on and we are proud of it! We were allowed to deliver the furniture which, in combination with the rest of the interior, looks like a magical fairy tale.

Not only the interior is an art work, also the food is a party at By Ami!

Who would you like to have lunch with here?

Twentse Bierbrouwerij

Hengelo, The Netherlands

In the heart of Hengelo is the Twentse Bierbrouwerij Proeflokaal. Our designer Stefanie has worked with a lot of enthusiasm to transform the appearance of the new location into a robust, tough but above all atmospheric design.

Not only the restaurant, but also the multifunctional party rooms and meeting rooms for all conceivable events have been taken care of. The keywords are tough, traditional and pure. The interior is industrially designed with decorative piping, unpolished steel, wood and leather," says Tubantia.

Hotel & Restaurant Het Montferland

Zeddam, The Netherlands

Designer Marije speaks about project Het Montferland. "The historic building of Het Montferland is located in a very unique location in Zeddam. Because of the natural colours and a wink to the surroundings, it has become a playful and modern design. Subtle elements in the interior interconnect the various functions and spaces within the building. In addition, it corresponds with the greatest view that Het Montferland has to offer."

In consultation with the clients, the design has been translated into a conceptual design, in which the magical view and the characteristic building have found their origin again in the design".

"Truly beautiful!"

Bom Food & Drinks

Bouillon, Belgium

BOM Food & Drinks is located in Hotel de la Poste. A modern concept in a classic hotel. The entrepreneurs visited Studio Senses and that gave us and Van Gestel Grootkeukentechniek the opportunity to visualize the interior design and show how the different designs, materials and equipment interact and together create a fitting concept.

BOM is also equipped with a double terrace with lounges that offer the possibility to enjoy a nice view with a delicious cocktail.

Citycafe Blij

Zwolle, the Netherlands

The most prominent building in the centre of Zwolle has been given a new purpose. A multifunctional catering facility where experience is central with various spaces in different atmospheres.

A catering establishment with its own unique identity in industrial urban style that radiates welcome. In every space. Robust materials, various shades of copper fabrics, vintage look furniture and a strong lighting plan. Striking Kornuit beer tanks on the wall, a impressive chandelier and the cleverly designed bar are real eye-catchers and complete the atmosphere.

"That'll really make you happy, won't it?"

Restaurant Cavay

An all-in project of the permanent experience Studio Senses professionals for real grill lovers. Van Gestel industrial kitchen technology completely furnished the open kitchen. Large charcoal grills, live cooking decor and various innovative equipment give fragrance and taste to this all you can eat restaurant.

Kaja has completely translated the grill concept into a daring and atmospheric interior, where more than 300 guests can enjoy meat & fish. Various shapes & sizes tables are combined with one kind of vintage-look chair and are quenched with several lamps. If that doesn't put the senses on edge!

"A bold and atmospheric interior"

NO 11 Deventer, the Netherlands Inspired by Jackies

While we sit down at a table in the austere and light restaurant it's striking that the interior at least doesn't lack that much attention.

After a drastic renovation of four months the restaurant [80 chairs, spacious terrace in front of the door] is nothing like its predecessor Little Italy. That was no small job.

Restaurant Chi Chi's Luxemburg

Chi-Chi's is a Tex-Mex restaurant & bar chain originally founded in 1975 in Richfield, Minnesota (USA).

"We're not a chain of Mexican restaurants, we prefer to call it Tex-Mex with the typical dishes of the Southwestern United States.

It's up to Kaja to make the interior flow in the same atmosphere.

The food and music, in combination with the new interior forms a great whole.

Pizza Hut Luxemburg

Pizza Hut has grown to become the world's largest pizza chain since 1958 and is active in more than 100 countries. The secret behind the success of this chain? The large number of different types pizzas on offer. And the freedom of the franchisees.

A hut with a rich history. This has led to surprising contrasts in the new interior of Pizza Hut Luxembourg. No traditional pizzeria, but a restaurant in the taste and atmosphere of Italy. That was the idea of the designer of Kaja. Wooden furniture is interspersed with sleek, minimalist lamps and warm red accents. This is reflected in the furniture and cabinets as well as in the decoration and lighting. The walls are completely decorated in style with authentic and modern photos and chalkboards and breathe a pleasant atmosphere. A real perception. For young and old.

With a lot of enthusiasm, our designer managed to transform the lobby and restaurant into an attractive and unique design. Subtle elements in the interior ensure the interconnection between the spaces within the building.

The mix of various materials such as velour, marble and wood provide a warm and modern twist. A lovely place to relax in the lobby or have a drink in the lounge!

"An linked connection between the rooms."

Delfins Beach Resort

Bonaire

Kaja was hired to set up the entire project. Building on Bonaire, where raw materials are not available and there is a tropical maritime climate, calls for a specific approach.

The friendly shades of colour and tropical botanical elements provide a subtropical touch. The restaurant Brass Boer has an outdoor kitchen where chefs cook on natural stone and a terrace directly on the sea with beach bar and food truck.

Special is table number 14, a tribute to Johan Cruijff. Part of the turnover made at this table goes to the Johan Cruijff Foundation".

Nursing Home Vreugdehof

Amsterdam, The Netherlands

The real living room feeling comes up when you step inside at Verpleeghuis Vreugdehof in Amsterdam.

The large reading table and several cozy seating areas with plenty of space form the basis of the interior. Warmth and atmosphere are created by the use of wooden tables, friendly colors and surprising wallpaper.

Providing a carefree environment and the right care are paramount. Combined with comfort and style, residents can feel completely at home.

Welcome.

Park flat de Valkenburcht

Oosterbeek, The Netherlands

De Valkenburcht combines living, service and care. Offering a carefree environment and the right care are of course the first priority. But De Valkenburcht is convinced that an attractive living environment has a positive effect on the residents and/or guests.

Upon entering the castle, the living room feeling is immediately palpable. A large reading table, a sitting area with fireplace and several cosy seats with enough space for privacy form the basis. Care with a touch of hospitality. Warmth and atmosphere are created by the use of natural stone, beautiful materials and strong (urine-resistant) fabrics. Welcome home.

Street Jump

Breda, The Netherlands

For all your acrobatic stunts you can go to Street Jump Breda!

This project story started in 2018 when 2 Entrepreneurs came to Studio Senses Breda for an intake interview with our designer Marije and consultant Lesley. This resulted in a creative design, which was almost completely adopted. The existing canteen was stripped and only the bar remained, it would be "pimped" by Kaja.

During the pimping the bar was already stripped of its cloak and it soon became clear that the state of the bar was disappointing. As a result the team of Kaja changed gear quickly and the bar was renewed. During the measurements, the kitchen was also discussed and together with our partner Van Gestel we came up with a proposal for a compact kitchen. In less than 6 days the project team of Kaja installed a completely new interior and Van Gestel installed a new kitchen.

Casino Las Vegas

Leeuwarden, The Netherlands

"What happens in Vegas, stays in Vegas.
This winged statement is typical of the exciting
and unexpected possibilities that the casino Las
Vegas has to offer.
Kaja was allowed to work everything out from
head to toe making it a cozy, mysterious and
above all colorful space. A casino where you can
go for excitement, conviviality and happiness but
above all a lot of fun!"
